

Aquaperform

Multipure's Aquaperform Drinking Water System features not just Multipure's Solid Carbon Block technology but also includes a specially-developed arsenic-adsorptive media that provides for the reduction of Arsenic V. The Aquaperform features a stainless steel housing and is designed for both versatility and additional contaminant reduction performance. The Aquaperform is NSF-certified to treat contaminants of Aesthetic Concern (Standard 42), contaminants of Health Concern (Standard 53) – including Arsenic V).

Benefits & Features

- Easy and convenient to use; provides delicious, clear, healthier drinking water whenever you need it.
- Better-tasting beverages - coffee, tea, juices, and drinks of all kinds.
- Use for food preparation, improving the taste of fruits and vegetables.
- Highest quality water for cooking - better pasta and sauces, soups, etc.
- Your pets will love it too!
- Guaranteed quality backed by an outstanding customer satisfaction guarantee and warranty.
- Cost-effective solution to meet your budget and replaces costly bottled water
- Attaches easily to your faucet without tools.
- Reliable protection for all of your family's drinking water needs.

Specifications

SKU	MP880
Housing Composition	Stainless Steel
Faucet Composition	Chrome plated lead-free
Rubber Items	Silicone
Inlet	1/8" NPT
Outlet	1/8" NPT
Replacement Filter	CB11As
Approximate Capacity	600 Gallons
Approx. Flow Rate	1.00 gpm @ 60 psi
Water Pressure	100 psi max/30 psi min
Housing Dimensions	11" h x 5.75" w
Particulate Retention Size	Sub Micron
Housing Warranty	Lifetime

Filter life will vary in proportion to the amount of water used and the level of impurities in the water being processed. Claims of capacity are not applicable to contaminants reduced by mechanical filtration because of broad variations in the quality and quantity of physical matter in your drinking water. Your Multipure filter will clog, protecting you from these contaminants, and your flow rate diminishes. For contaminants reduced by adsorption, filter life/capacity is 600 gallons. It is recommended that the filter be replaced when the first of the following occurs: (a) annually, (b) the unit's rated capacity is reached, (c) the flow rate diminishes, (d) the filter becomes saturated with bad tastes and odors.

Base Kit - This unit is excellent for use with inline applications such as icemakers, instant hot units, coffee machines, various restaurant uses, etc. Comes with easy connect fittings; however, no installation fixtures or accessories are provided.

Countertop Kit - This unit sits on your counter next to the sink and connects to your existing faucet using a dual-hose diverter valve that allows you to easily switch from filtered to unfiltered water. The unit may be converted to a below-the-sink unit with the purchase of a conversion kit.

Below-The-Sink Kit w/ Faucet Kit - This unit hides below the sink and refreshing, delicious water pours through a designer faucet, which is installed directly on your sink, conveniently at your fingertips. It may also be connected to an icemaker or other device by using a tee. Faucet Available in multiple colors.

Single Hose Diverter Kit - Use this kit to connect to your existing faucet with a single-hose diverter valve and output from a system-mounted faucet.

Below-Sink Kit
(Faucet Included)

Countertop Kit
(Dual-hose Diverter Valve Included)

Single Hose Diverter Kit
(Single-hose Diverter Valve Included)
